

What is Kids Voting?

- Kids Voting Leon County is a nonprofit, nonpartisan program devoted to educating students in grades K-12 about the voting process and civic responsibility.
- In a country where voter apathy is an ever-increasing problem, Kids Voting wants to encourage young people to learn early the importance of exercising their right to vote.
- Kid's Voting Leon County currently has approximately 40,000 students eligible to vote in over 100 precincts!

How do we bring this vision into focus?

- We supply teachers with sample ballots and curriculum support about the upcoming local, state, and national elections to help educate students about the issues at school.
- We provide educational materials to students and parents through the Newspaper in Education pages every Tuesday from September 23 through November 11 in the *Tallahassee Democrat*.
- We encourage students to vote with their parents at the Kids Voting booth at their local polling place on Election Day.

How can you help Kids Voting in our mission?

- Discuss current election issues and candidates with your children and talk to them about the importance of voting.
- Take your children to vote with you on Election Day at your precinct.
- Show your enthusiasm for casting your own vote.
- Make a monetary contribution to Kids Voting.
- Volunteer your business, organization, or family to adopt a precinct for the November 4 election.
